CALL FOR PROPOSALS

**International Coordination of Research on Infectious Animal
Diseases (ICRAD)**

**“Helminth infections and changing climate: tackling the challenges
for animal health”**

Deadline for submission of pre-proposals:

1 June 2023, 15:00 CEST (Berlin)

This document announces the third transnational call on infectious animal diseases within the framework of the International Coordination of Research on Infectious Animal Diseases (ICRAD) ERA-NET¹.

The overall objective of this research call is to increase understanding and preparedness for impending effects on animal health and livestock industry caused by spread of anthelmintic resistance and climate change.

Consortia must include a minimum of 3 partners from a minimum of 3 different countries, and a maximum of 8 partners. The consortium cannot include more than two partners from one country. Industry involvement is encouraged.

Applicants must respect eligibility rules of the call and the national/regional rules and regulations of their respective national/regional funding organisation as outlined in section 5 and Annex I of this document. In some cases, an additional application to the national/regional organisation is necessary. Applicants are strongly advised to contact their funding contact point.

The Call Announcement:
A must read!

It is available for Download on the Joint Call Web Page

**Contract
negotiations**

Project start
May 2024 – July
2024

I. Joint Call Timeline and Funding Opportunities

| Country | Funding Organisation | National/regional call contribution | | Research Area | | |
|--|---|--|------------------------------------|---------------|---|---|
| | | Total (k€) | max. per project (k€) | 1 | 2 | 3 |
| Belgium |  Federal Public Service Health, Food Chain Safety and Environment (FPS Health) | 300 | 150 | x | x | |
| Estonia |  Ministry of Rural Affairs (MEM) | 100 | 100 | x | x | x |
| France |  French National Research Agency (ANR) | 1000 | 350 | x | x | x |
| Ireland |  Department of Agriculture, Food and the Marine (DAFM) | 600 | 300 | x | x | x |
| Latvia |  Latvian Council of Science (LZP) | 600 | 100 (per year and partner) | x | x | x |
| Poland |  The National Centre for Research and Development (NCBR) | 600 | 200 (per partner in project) | x | x | x |
| Türkiye |  Ministry of Agriculture and Forestry, General Directorate of Agricultural Research and Policies (TAGEM) | 200 | 50 (100, if coordinator) | x | x | x |
| Türkiye |  The Scientific and Technological Research Council of Turkey (TUBITAK) | 600 | 75 / 125 (See Annex I) | x | x | x |
| United Kingdom |  The Secretary of State for Environment, Food and Rural Affairs (DEFRA) | 1650 | 875 | x | x | x |
| Total of national/ regional call contributions: | | 5650 | | | | |

Webinar Outline

- I. Joint Call Timeline
- II. Introduction to the Joint Call

Introduction to ICRAD 3rd Call

icrad

International coordination of research
on infectious animal diseases

Objectives of the 3rd ICRAD Call

The 3rd ICRAD call aims to increase understanding and preparedness for impending effects of climate change and the spread of anthelmintic resistance on animal health and the livestock industry.

This call aims to fund research in three separate fields to achieve the following objectives:

- Improve understanding of anthelmintic resistance and develop intervention tools to prevent it.
- Better understand impacts of climate change on animal health.
- Develop new detection and prevention platforms.

3rd Call Thematic Background

- Resistant helminth populations are found in all grazing livestock species, and resistance has developed to all major classes of anthelmintic drug¹.
- Helminth infections cost the European livestock industry more than €1.8 billion per year in production losses and treatment costs².
- Changes in climatic patterns can affect disease incidence and vector behaviour whilst higher than average temperatures can cause significant stress to livestock systems.
- Projected global economic losses due to climatic impacts on livestock by the mid-21st century range from \$9.7 to \$12.6 billion³.

1. Kaplan, Ray M. "Drug resistance in nematodes of veterinary importance: a status report." *Trends in parasitology* 20.10 (2004): 477-481.

2. Charlier, Johannes, et al. "Initial assessment of the economic burden of major parasitic helminth infections to the ruminant livestock industry in Europe." *Preventive Veterinary Medicine* 182 (2020): 105103.

3. Boone, Randall B., et al. "Climate change impacts on selected global rangeland ecosystem services." *Global change biology* 24.3 (2018): 1382-1393.

Development of the Scope - Evidence

We collated research priorities from the following documents:

- DISONTOOLS – Research gaps for improving disease control in animals
- BBSRC Veterinary Vaccinology Research and Innovation Survey Report: Gaps and Priorities (based on global consultation)
- ICRAD SRIA Survey Results
- STAR-IDAZ Animal Influenza Research Priorities

The main priorities listed in these documents were grouped and placed in an online survey which was sent to ICRAD partners, industrial partners, STAR-IDAZ members and other interested parties.

3rd Call Topics – Anthelmintic Resistance

Research Area 1: Research to improve understanding of anthelmintic resistance mechanisms, the impacts of anthelmintic resistance on livestock health, and development of tools to help diagnose, prevent, and manage it.

Potential areas of interest could be:

- Improving methods used for diagnosis and monitoring of helminth infections, including drug efficacy;
- Tests for detecting anthelmintic resistance against all anthelmintic classes in helminth species of importance;
- Pen-side tests and associated decision support tools that rapidly inform on levels of infestation and morbidity;
- Develop methods to quantify or map levels of anthelmintic resistance present in livestock herds;
- Understanding the biological response of helminths to changing climatic conditions and potential impacts on anthelmintic usage/ requirements;
- Improved knowledge of the immune mechanisms associated with natural, and vaccine induced protection from helminths; and
- Development of novel, and improvement of currently available helminth control strategies including anthelmintic vaccines.

3rd Call Topics – Impacts of Climate Change on Animal Health

Research Area 2: Research to increase understanding of the impacts of climate change and vector borne diseases on animal health, including development of tools to prevent, prepare and respond to animal health emergencies triggered by climate change.

Potential areas of interest could be:

- Epidemiological monitoring of changes to spatial and temporal distribution of animal disease resulting from climate change— including development of novel digital tools to visualise, collate and report this information;
- Modelling and forecasting of the impacts of climate change on the spread of infectious livestock disease - including how animal movement and implementation of control zones could influence this;
- Understanding changes to transmission and pathogenicity of animal disease resulting from climate change; and
- Understanding direct and indirect impacts of climate change, for example thermal stress, on susceptibility of livestock to disease.

3rd Call Topics – Vaccine and Diagnostic Technology Platforms

Research Area 3: Research to support the development of novel and improved vaccine and diagnostic tools and platforms and research to assess the utility and efficacy of existing technology platforms.

a. Vaccine Technology Platforms Robust and flexible vaccine platform technologies, fit for multiple, and rapidly changeable vaccine targets, can reduce the technical and regulatory time for vaccines against emerging pathogens.

b. Diagnostic Technology Platforms Novel and point of care diagnostic platforms are needed to accurately detect disease presence in animals. Although reagents are available to develop diagnostics in many animal species, these are not always practical in the field or effective at detecting the presence or exposure to pathogens.

Exclusions & Industry Involvement

The research funded through this call is to improve health of livestock and the focus of each research proposal should be on animal health/disease. Research that mainly focuses on the below **are not in the scope of the call**:

- Improving human health
- Companion animals
- Food-borne pathogens
- Animal welfare
- Environmental/climatic modelling
- Antimicrobial resistance
- Ectoparasites

A collaborative approach between academic and industry sectors is encouraged for this call. Especially for projects which aim to develop vaccine and technology platforms as part of Research Area 3.

Any Questions?

- Thank you for your time.
- thomas.erritt@defra.gov.uk

Webinar Outline

- I. Joint Call Timeline
- II. Introduction to the Joint Call
- III. Important conditions and requirements
(eligibility, participating countries and proposal outline)

III. Conditions and requirements

Eligibility

III. Conditions and requirements

General Eligibility

- The application must be written in **English**
- Pre-proposals must be submitted by **1st of June 2023** (15:00 CEST Berlin) using the ERA-NET ICRAD submission website (www.submission-icrad.eu/call3).
- Max. duration of a project: **36 months**
- Researchers can contribute to more than one research proposal submitted to this call, provided there is no double funding of the same work or cost item. In case researchers participate in two or more research proposals, they are obliged to respect the national/ regional rules related to double funding. In the section “Partners” (via Partner Login) under “Tasks within the project” they must name the proposals, in which they are involved and explain clearly how their work within the respective proposals differs. Participation as project coordinator is only possible in one research proposal.
- Projects must follow the rules outlined under “consortium structure”.

III. Conditions and requirements

General Eligibility - Consortium Structure

Partner: Asking for funding

Associated Partner: Not asking for funding, Letter of Commitment necessary!

- Min. of **three partners (asking for funding)** from a **min. of three different countries.**
- **Maximum 8 per Proposal!**
- **Not more than two partners from 1 Country!**
- Applicants from non-participating countries or non-eligible applicants can participate at their own costs (**associated partners**)
- Associated partners will **not** count **towards the maximum or minimum** numbers.
- Associated Partners can only be partners, not coordinator of a proposal.
- The budget of non-funded partners shall not exceed 30% of the requested total transnational project budget.
- Total funding per country must not exceed 60 % of the total funding budget of the proposal in order to achieve balanced partnerships and ensure that responsibility and risks are shared.

Be really careful with your project consortium composition and better ask the call secretariat to be sure! If rules are not fulfilled your project will be ineligible → No Funding!

III. Conditions and requirements

General Eligibility - Consortium Structure

Examples

| Consortium | Eligible | Reason |
|--|----------|---|
| 2 Partners, + 2 Associated Partners | No | Less than three partners! |
| 3 Partners from Germany, 1 from Estonia, + 2 Associated Partners | No | Less than three countries with full partners involved! |
| 9 Partners from 9 countries, + 2 Associated Partners | No | More than 8 Partners! |
| 3 Partners from 3 Countries | Yes | Minimum number of full partners fulfilled |
| 4 Partners from 3 Countries, + 3 Associated Partners | Yes | All eligibility rules fulfilled |
| 8 partners from 5 Countries, 0 Associated Partners, not more than two from one country | Yes | All eligibility rules fulfilled |

III. Conditions and requirements

National Eligibility

National eligibility criteria as described in the National Regulations:

- **READ** the national ANNEX!
- Which Research Area can be funded (Not all Funders fund all Research Areas!)?
- Budget per project (Some Funders have budget limitations per project or per partner!)
- Who can apply for funding (research institutions, SMEs, differs from funder to funder)
- Whether a submission of a national application is requested

Consult your National Contact Point!

Make sure every Partner in your proposal contacts the National contact point!

In case one partner of a project consortium is not eligible, the Call Board may reject the entire proposal.

III. Conditions and requirements

Call Budget (in M€)

- Overall Call Budget: ~ 5.65 Mill €
- Different Budget per Country/Funder
- Please be aware of different maximum budget per project partner → It is also possible to stay well below the max. amount!
- Please discuss your proposed budget with your national contact point and make sure your project partners do so too.
- Total eligible budget per country must not exceed 60 % of the total eligible project budget in order to achieve balanced partnerships and ensure that responsibility and risks are shared. → **make sure the budget in your project is well distributed, according to the tasks the partners have to fulfil**

III. Conditions and requirements

Proposal Outline

- Project & Partner information, incl. Tasks
- Keywords
- Project summary
- Background and state-of-the-art
- Description of work
- Project Budget (Finances)
- CV
- LOC (only for Associated Partners)

All information must be entered to the submission tool.

III. Conditions and requirements

Project monitoring, meetings and reporting

- Partners from each funded project are expected to organise regular project meetings
- Possible ICRAD Meetings, Coordinator obliged to participate
- Coordinators will most likely be required to submit a mid-term and a final report to the funders about the results of their transnational project (in addition to reporting required by the national funding bodies)

**The costs for
the meetings should be included in the project
budgets.**

PARTNERING

- POST AN OFFER/REQUEST
- LIST OF OFFERS/REQUESTS

PARTNERING

This partnering tool helps you to find cooperation possibilities within the ICRAD calls. It can be used in the following ways:

- Post a Partner Offer/Request**

Please post an entry in the partnering tool, if you are looking for collaboration opportunities in project consortia and would like to offer your expertise. You are also welcome to make a post, if you already have a project idea and are looking for further partners that would like to join you/your consortium. Next to providing your contact details, you should give a brief description of your organization. It is important that you provide some key words describing your field of research/innovation and that you specify your interest and the experience, expertise and know-how you/your organization has to offer in relation to one of the listed call research areas of ICRAD.

- Search List of Partner Offers/Requests posted by others**

The database can be searched by call topics (research areas), keywords and all the other information provided by its users.

Please note:

There will be a plausibility check by the ICRAD Call Secretariat for each of your entries. If the information given passes this plausibility check, which sometimes can take a few days, your request(s) will be published on the page "List of Partner Offers/Requests". Following the publication all information provided by you will be publicly available.

You can post a Partner
offer or request

or

See the list of Partner
offers/requests

Partner search

- Post an offer or request
- Choose your topic (Research Area 1 or 2), give keywords!

WELCOME !

Welcome

to the 3rd joint call for proposals of the ERA-NET on International Coordination of Research on Infectious Animal Diseases (ICRAD)

"Helminth infections and changing climate: tackling the challenges for animal health"

The 3rd call for research projects is open since 3rd April, 2023.

Applications for funding within this call can only be submitted through this platform.

If you want to register as a coordinator for a transnational research project, please read the CALL ANNOUNCEMENT thoroughly. It will ascertain that your planned project fits to the aim of this call. Please take a special look on the national/regional regulations stated in Annex I of the same document. The contact details of your National Contact Person(s) can be found in Annex I, too. You can download the CALL ANNOUNCEMENT from this page in the left corner below! Please check regularly if a new version is available.

Non-coordinating partners of a project will be invited by the respective coordinator to enter their profile data and get access to the automatically generated project fact sheet. For the invitation by the coordinator, the platform creates a password which is sent automatically by email to the partner and which allows access.

If you are interested in an application you can search for partners by using the Partnering Tool. Please click on the corresponding link in the right corner on the top of the page.

Pre-Proposals must be submitted electronically via this ERA-Net ICRAD submission tool

Please find our

Important note for applicants who are applying for funding from Türkiye

Due to the fact that there are 2 Turkish Funding Agencies every applicant from Turkey, both Coordinator or Partner in a project, has to choose for which Agency he/she applies for. Please do so by indicating **Türkiye-TAGEM** or **Türkiye-TUBITAK** as your country.

WELCOME

Dear project coordinator,

please read the **Call Announcement** carefully before submitting the proposal on behalf of your consortium. In case of questions, remarks or uncertainties please do not hesitate to contact the ICRAD Call Office under ptj-icrad-calls@fz-juelich.de. Helpful documents can be found in the download area (left navigation bar). Only online applications via this submission tool will be accepted. Please provide the requested information at each section of this online submission tool. Completely filled proposals will be accepted for submission and subsequent eligibility check and evaluation. The template given in the left navigation bar is only for your information and convenience. You have to enter your data, project description etc. directly in the submission tool.

Please note that you have the possibility to submit your proposal multiple times until the submission deadline. **It is recommended to submit a preliminary version of the proposal well beforehand of the deadline.** Your preliminary proposal can be updated by submission of a new version. The old one will be substituted by the new version.

Make sure that partners participating in your proposal and requesting funding are eligible to their national/regional funding bodies. All consortium partners are strongly recommended to contact their respective National/Regional Contact Persons indicated in the Call Announcement/Annex I (left navigation bar) to check the budget, their eligibility, and to clarify any other issues before starting the proposal preparation. Please make sure that your partners check the box "I've read the

WELCOME

Dear project coordinator,

please read the **Call Announcement** carefully before submitting the proposal on behalf of your consortium. In case of questions, remarks or uncertainties please do not hesitate to contact the ICRAD Call Office under ptj-icrad-calls@fz-juelich.de. Helpful documents can be found in the download area (left navigation bar). Only online applications via this submission tool will be accepted. Please provide the requested information at each section of this online submission tool. Completely filled proposals will be accepted for submission and subsequent eligibility check and evaluation. The template given in the left navigation bar is only for your information and convenience. You have to enter your data, project description etc. directly in the submission tool.

Please note that you have the possibility to submit your proposal multiple times until the submission deadline. **It is recommended to submit a preliminary version of the proposal well beforehand of the deadline.** Your preliminary proposal can be updated by submission of a new version. The old one will be substituted by the new version.

Make sure that partners participating in your proposal and requesting funding are eligible to their national/regional funding bodies. All consortium partners are strongly recommended to contact their respective National/Regional Contact Persons indicated in the Call Announcement/Annex I (left navigation bar) to check the budget, their eligibility, and to clarify any other issues before starting the proposal preparation. Please make sure that your partners check the box "I've read the national regulations" in their section, otherwise a submission will not be possible.

You as the coordinator of your research consortium have to complete and submit the proposal.

Your project partners cannot edit the proposal, except their section: address data and information about tasks within the project. Your partners do not have access to the respective sections where to modify the proposal or the data of other partners in your research consortium. However, they can download the present version of the proposal as compiled by you as coordinator by going to "Download Proposal".

Keep the deadline of **June the 1st, 2023, 15:00 CEST**. We cannot accept any proposal after the deadline is reached.

Please remember that you can only be the coordinator of **one** application per call.

There will be a **webinar for applicants 20th of April 2023, 10:00 - 12:00 CEST**. Please register for the webinar [here](#). Participation at the webinar is recommended, but not obligatory. The slides of the presentation as well as a Q&A document will be published.

In case of questions, remarks or uncertainties please do not hesitate to contact the ICRAD Call Office under ptj-icrad-calls@fz-juelich.de.

Sincerely,

ICRAD Call Secretariat

Research Area * Please specify which Research Area you are applying for

Research Area 1: Research to improve understanding of anthelmintic resistance mechanisms, the impacts of anthelmintic resistance on livestock health, and development of tools to help diagnose, prevent, and manage it

☒ Research Area 2: Research to increase understanding of the impacts of climate change and vector borne diseases on animal health, including development of tools to prevent, prepare and respond to animal health emergencies triggered by climate change

Keywords and Project summary

Keywords: Please enter 3 - 5 keywords describing the content of your proposal

Summary: SHORT (2000 Characters) and understandable!!!! and **PUBLISHABLE!**

Submission platform

BACKGROUND AND STATE OF THE ART

Please describe the background and state of the art in your research field including **a brief statement how the project will contribute to scientific development and address gaps in existing knowledge** (please avoid duplication with the Project Description) (4000 Characters)

Submission platform

Project Description

Please enter your project description (10 000 characters). The project description should:

- a) specify the relevance to the call scope and research area, detailing also the impact of the research subject
- b) describe the scientific idea and formulate clear research objectives
- c) explain the composition of the consortium
- d) provide information on the project management and responsibilities of the project partners
- e) provide a short description of the research activities into work packages
- f) describe ethical issues raised and how they will be addressed (see Guidance on ethics within H2020)
- g) provide information on involvement of private / non-academic partners

Figures

- You have the opportunity to upload up to 3 images. To insert them, you enter the place marker "[[figureX]]" into your text (where the image should appear). By replacing the X with the number of the image you create the link to the image.

For example [[figure2]] for the 2nd image.

Max file size: 600px x 600px, 2MByte
Allowed formats are jpg, png or gif

Example:

Description of work:

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum.

[[figure1]] *Stet clita kasd gubergren, (figure 1) no sea takimata sanctus est Lorem ipsum dolor sit amet.*

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet.

The term [[figure1]] tells the system to place the file uploaded in slot 1 of the figure menu exactly there.
The term (figure 1) is no command and does nothing but just refer the reader to the first figure.

Letter of Commitment

- **Associated Partners:** Partners may participate in a project at their own expense (in-kind), if their contribution is important to achieve the project goals. Thereby associated partners can also come from countries not participating in the call or who would be ineligible for national/regional funding from the agencies participating in this call. **Please upload for each of these associated partners and only for those a letter of commitment. Compile all the required documents into one pdf** (allowed file size: 5 MB, PDF file format). For your convenience a **LoC-template** is provided.

Evaluators

- Here you can name up to three persons, who may NOT evaluate your proposal

Additional Upload

- Here you can upload a pdf document (1 Page, 3 MB) which contain additional information (e.g. List of References). This is optional and not mandatory.

Webinar Outline

- I. Joint Call Timeline
- II. Introduction to the Joint Call
- III. Important conditions and requirements
(eligibility, participating countries and proposal outline)
- IV. How to submit a proposal via the submission tool
- V. Evaluation of proposals (Pre- and Full-Proposals)

V. Evaluation: Evaluation procedure

- **2 Step procedure through Online Evaluation Tool:**

Step 1: Evaluation of Pre-proposals

Step 2: Evaluation of Full proposals

- **Platform registration**

1. Expert receives personalized **login data** to the **online evaluation tool** from the ES;
2. **Upload signed Confidentiality Agreement** to get access to the core data of the projects (abstract, consortium, title);
3. Based on the core data, experts will be asked to declare whether they have a **CoI** with assigned proposals.

V. Evaluation: Evaluation criteria of pre-proposals

Excellence

- a) Scientific quality of the proposal.
- b) Relevance of the project regarding the addressed research area and objectives of the call.

Impact

- a) Potential impact of the expected results for future animal and public health.
- b) Added value of transnational collaboration: gathering a critical mass of biological material, sharing of resources (models, databases, etc.), harmonization of data, sharing of specific know-how and/or innovative technologies, etc.
- c) Potential for fostering a longer-term international network of researchers.

Quality and efficiency of the implementation

- a) Coherence and effectiveness of the work plan (for full proposals: including appropriateness of the allocation of tasks, resources and timeframe).
- b) Complementarity of the participants in the consortium.

V. Evaluation: Evaluation criteria of full proposals - 1

Excellence

Same as for pre-proposals

+ Novelty of proposed research.

Impact

Same as for pre-proposals

+

d) **Effectiveness** of the proposed **measures** to exploit and disseminate the project results (including management of IPR), to communicate the project, and to manage research data where relevant.

e) **Involvement of private partners** (SME and/or industry, if available (when appropriate/applicable)).

f) Possible impact of age, gender and socio-economic status (when appropriate/applicable).

g) Education and training of young scientists (when appropriate/applicable).

V. Evaluation: Evaluation criteria of full proposals - 2

Quality and efficiency of the implementation

Same as for pre-proposals

+

- c) Appropriateness of the management structures and procedures, including risk and innovation management.
- d) Sustainability of research infrastructures initiated by the project.
- e) Budget and cost-effectiveness of the project (appropriate distribution of resources in relation to project activities, partners' responsibilities and timeframe).

Scores for the three evaluation criteria will have equal weight

V. Evaluation: Evaluation procedure

Peer review:

- Each pre-proposal is reviewed by at least 3 evaluators from the ISEC
- The assignment of the pre-proposals to the experts is done by ES with support of the ISEC Chair and Co-Chair according to the relevant expertise of the reviewers
- Pre-proposal **evaluation** is held **remotely via the online evaluation tool**.
- For **each pre-proposal**, one ISEC member is assigned as **rapporteur**. The **rapporteur** drafts a **summary report** for each proposal reflecting the individual evaluation reports (strengths & weaknesses).

V. Evaluation: Decision-making

As a result of the evaluation, a ranking list of the full proposals recommended for funding will be established.

Based on the ranking list, the funders will take the final decision for national/regional funding, following general guiding principles :

- Fund as many high-quality projects as possible;
- Balanced geographical representation (e.g. for proposals with the same ranking).

The outcomes of the funding recommendations will be communicated by the Call Secretariat to the project coordinators, who shall inform their respective partners
